

Precision | Quality | Commitment

ListGlobal is world's largest lists and database marketing company that offers specialized services and solutions in targeted marketing lists, data management & data analysis, and business intelligence. Our offerings:

Technology Lists

ListGlobal is one of the largest providers of contact lists of technology users and technology professionals in the world. We serve businesses, businessmen and entrepreneurs from all industrial backgrounds like information technology, healthcare, banking, accounting, finance, automobile, manufacturing, marketing, advertising, human resources, etc who are looking to connect with global technology users.

Targeted Marketing Databases

ListGlobal helps businesses of all sizes (small, medium, large and fortune 500/1000) to succeed in their target audience. We offer targeted lists and databases from various criteria – technology, company, size, revenue, industry, SIC code, geography, demography, job title, etc. Our products are both ready to use and custom built – whatever suits the purpose and requirement of the time.

Data Management and Analysis

ListGlobal team consists of more than 250 data specialists and professionals, and a huge master database with more than 50 million B2B and B2C records. With these experts, ListGlobal can easily add fresh contact details, extract outdated records, delete incorrect information and maintain the health of databases on a daily basis. We use both manual and automatic data verification processes to validate the accuracy our lists.

Business Intelligence

ListGlobal is the largest source of marketing data and lists for anyone looking to establish business or extend their marketing reach across the globe. ListGlobal is associated with several world leading technology marketers, event management companies, publishers, email marketing vendors, Internet service providers, data research centers, databanks, trade centers, e-commerce giants, etc.

We take Businesses to Greater Heights!
